to drop in any place you see the sign "Jeweler" when your watch don't keep time and you want it put in such condition that it will. Not one in every ten can make more than a bluff at cleaning it. It ought to be cleaned, of course, but cleaning is the smallest item of all that goes toward making a watch keep time. There are many fine adjustments that may have become deranged, or if some of the delicate parts are badly worn, it requires the highest grade of skill in watchmaking to repair it so it

will keep perfect time.

A watch made right here--cut from the raw material, pronounced by experts to be equal to anything they have ever seen in finish and workmanship,---that we have carried for over ten years will sustain our claim to being the only place in Maysville where you can have your watch put in perfect order, no matter what it needs.

Louisville, April 2d.

A reporter for The Commercial asked
overnor Bradley yesterday shout the effect that the alleged "McKlniev people here are engaged in sending out circu-lars, charging that the Governor is in a combine with Platt of New York and Quay of Pennsylvania to defeat McKin

ley.

Governor Bradley said that he had no heard of this charge, but that he had no reason to believe that the statement in The Times was correct. However, h It was absolutely faise from first to last, and that its circulation is a wiliful sian der. If any Louisville Republicans are currency to a lie, knowing that it is

rattied in this state, and a great many who, a few days ago, were clamoring for the Ohioan, have concluded that the very gauzy stories of future pie that are being told for the stimulation of the attempted office seeking contingent would like to know whether McKinley has authorized anybody to promise the patronage of the National Administration in case he suc-ceeds. As a matter of fact, Governor McKinley's managers have written to Governor Bradley's friends repudiating the anti-Bradley fight in Kentusky that is being made under the pretense of helping McKin ley.

The great majority of those who voted for Governor Bradiey iast year are loyal to him, and the only opposition is dwin dling away as it becomes more and more apparent that Kentucky is going to stand equarely by her own splendid leader. The attempt to make it appear that Gov ernor Bradley is opposing McKiniey is not deceiving any McKiniey men who are in his confidence. SENEX.

WINTER WHEAT.

Reports From Over Five Handred Townships as to its condition in Indiana.

ISMIASA roats, Ind., April 6.—During of relationships in the Development of statistics has been collecting winter wheat statistics from the 1.016 townships in the state. Reports have been received from 503 townships, representing every cousty but one in the state, and the result is a decided failing tion as compared with last year. The general average for the state is 0.4 and the condition is 74.7. The principal cause given for the failing off in the condition of the crop is that tar-led the growth of the young plant and eaused it to enter the winter in bad shape, which caused it to determine with the alternate freezing and thawing. March weather was very injurious to Indiana wheat where it was not protected by anov.
